

PRESS RELEASE

SOLARWATT Recognises Solar EV North as Premium Partner 2026

+++ Award recognises commitment to quality, customer service and renewable energy excellence in the North East

London, October 2026 –

- SOLARWATT has recognised **Solar EV North** as a **SOLARWATT Premium Partner 2026**, celebrating the company's commitment to delivering high-quality solar and energy storage installations across the North East.

The award was presented to Company Directors **Kristen Southern** and **Cameron Ferguson** by **Peter Bachmann, Managing Director of SOLARWATT UK & Ireland**, during Solar & Storage Live at the NEC Birmingham. Premium Partner status is awarded to installation businesses that consistently demonstrate excellence in quality, technical expertise, customer service and long-term support.

- Solar EV North has established a strong reputation for delivering premium renewable energy solutions, helping homeowners take control of their energy costs while benefiting from high-performance solar and battery storage systems.

Peter Bachmann, CPO & Managing Director, SOLARWATT UK & Ireland, said:

"Premium Partner status is reserved for installers who consistently demonstrate excellence. Solar EV North has earned this recognition through its commitment to quality, expertise and customer satisfaction, and we are proud to recognise that achievement."

"Strong installation partners are essential in helping homeowners make the transition to clean energy with confidence. Solar EV North has built an excellent reputation in the North East for delivering high-quality installations and outstanding customer experiences, and we look forward to continuing our successful partnership."

The recognition reflects the shared values between SOLARWATT and Solar EV North: a commitment to premium products, trusted advice, expert installation and exceptional customer care.

Kristen Southern, Director, Solar EV North, said:

"We're incredibly proud to receive this recognition. It reflects the hard work of our entire team and our commitment to delivering the highest standards for our customers."

"We believe solar should be simple for homeowners, but never simplistic in how it's designed or installed. That's why we only use premium products, install every system with care, and provide local support long after the job is done. No shortcuts. No call centres. Just real people delivering better energy. Achieving SOLARWATT Premium Partner status is a testament to that approach and to the strong partnership we've built together."

- As demand for solar PV and battery storage continues to grow across the UK, SOLARWATT and Solar EV North will continue working together to help homeowners reduce energy costs, increase energy independence and get more value from clean energy technologies.

About Solar EV North

- Solar EV North is a trusted renewable energy specialist serving homeowners and businesses across the North East. The company designs and installs premium solar PV, battery storage and EV charging systems, combining technical expertise with a commitment to outstanding customer service. By focusing on quality products, meticulous installation standards and long-term local support, Solar EV North helps customers reduce energy costs, increase energy independence and make the transition to clean energy with confidence.
